SUMMARY

Full-stack engineer with close to 3 years of experience building web products in Next.js, React and Node.js. At Webknot I redesigned a backend that now responds about 70% faster and integrate AI features built by the ML team. Previously led a development team at Invennico, where I owned architecture, CI/CD and code reviews.

SKILLS

Languages: JavaScript (ES6+), Go, SQL, HTML5, CSS3

Frontend: React, Next.js (SSR, SSG), Redux, Zustand, TanStack Query, Tailwind CSS, Styled Components, Storybook

Backend: Node.js, Express.js, REST APIs, GraphQL, Firebase, JWT authentication

Data and messaging: PostgreSQL, MySQL, MongoDB, Redis, Apache Kafka, RabbitMQ, AWS SQS

Cloud and DevOps: AWS (S3), Docker, GitHub Actions, Vercel, CI/CD

Design: Microservices, event-driven architecture, system design, performance tuning, SEO

EXPERIENCE

Webknot Technologies, Bengaluru | Senior Software Developer Oct 2025 – Present

- Redesigned the backend architecture of a client product; API response time dropped by about 70% and the service stayed at near-zero downtime.
- Integrated AI-driven features from the ML team into our backend services.
- Rebuilt large parts of the frontend so core user flows are simpler and faster to use.
- Review code for the team, maintain technical documentation and mentor junior developers.
- Turn client requirements into technical designs and deliver them in Agile sprints.

Invennico TechnoLabs, Vadodara Jun 2024 – Sep 2025

Software Developer Team Lead (promoted) Apr 2025 – Sep 2025

- Designed the system architecture for client projects and owned them from planning to deployment and post-launch support.
- Built CI/CD pipelines with automated deployments, which removed manual release steps.
- Led the team's stand-ups, sprint planning and retrospectives, and set up the code review process.
- Worked directly with clients on requirements, technical proposals and progress updates.

Junior Software Developer (MERN) Jun 2024 – Mar 2025

- Built a responsive web application with Next.js, React, Node.js, Express.js and MongoDB.
- Implemented server-side rendering in Next.js to improve load time and SEO, which lifted user retention.
- Designed REST APIs and MongoDB data models; used JWT for authentication and AWS S3 for file storage.
- Kept the codebase clean through regular code reviews and shared conventions.

Adrixus Tech Studio, Vadodara | Software Developer Intern (MERN) Dec 2023 – Jun 2024

- Built reusable, responsive React components with Styled Components and documented them in Storybook.
- Wrote REST APIs with Node.js, Express.js and MongoDB and wired them into frontend features.

EDUCATION

B.Tech, Computer Science (Artificial Intelligence), ITM SLS Baroda University, Vadodara 2020 – 2024

ACHIEVEMENTS

- 1st place, Codeathon programming competition
- Technical writer on Medium: articles on Next.js, API design, SSR and SEO, and system design
