SUMMARY

Frontend-focused engineer with close to 3 years of experience building Next.js and React applications. I have shipped server-side rendering for speed and SEO, built component libraries in Storybook, and reworked product UIs to make core flows easier to use. Enough backend experience (Node.js, REST, GraphQL) to own a feature from API to screen, and have led a small team.

SKILLS

Frontend: Next.js (SSR, SSG), React, JavaScript (ES6+), HTML5, CSS3

State and data: Redux, Zustand, TanStack Query, REST APIs, GraphQL

Styling and UI: Tailwind CSS, Styled Components, Storybook, responsive design, component libraries

Quality: Performance optimization, SEO best practices, code review, documentation

Backend and tools: Node.js, Express.js, Firebase, MongoDB, PostgreSQL, AWS, Vercel, Docker, GitHub Actions

EXPERIENCE

Webknot Technologies, Bengaluru | **Senior Software Developer** Oct 2025 – Present

- Reworked the application's UI and UX, simplifying core user flows and making the product noticeably easier to use.
- Redesigned the backend the frontend depends on, cutting API response time by about 70% with near-zero downtime.
- Brought AI-driven features from the ML team into the product.
- Review frontend code, maintain coding standards and mentor junior developers.

Invennico TechnoLabs, Vadodara Jun 2024 – Sep 2025

Software Developer Team Lead (promoted) Apr 2025 – Sep 2025

- Led the development team on client projects, owning architecture and delivery from planning to post-launch support.
- Set up CI/CD with automated deployments and a code review step for every change.
- Ran sprint planning, stand-ups and retrospectives, and handled client requirements and updates.

Junior Software Developer (MERN) Jun 2024 – Mar 2025

- Built a responsive web application in Next.js and React, working closely with UI/UX designers.
- Implemented server-side rendering in Next.js to cut load time and improve SEO, which lifted user retention.
- Managed client state with Redux and Zustand, and deployed on Vercel.
- Built the Node.js and Express.js APIs behind the UI, with JWT authentication and AWS S3 file storage.

Adrixus Tech Studio, Vadodara | **Software Developer Intern (MERN)** Dec 2023 – Jun 2024

- Built reusable, responsive React components with Styled Components that worked across devices.
- Documented the component set in Storybook, which made UI work more consistent across the team.
- Built data-driven UI components with the backend team.

EDUCATION

B.Tech, Computer Science (Artificial Intelligence), ITM SLS Baroda University, Vadodara 2020 – 2024

ACHIEVEMENTS

- 1st place, Codeathon programming competition
- Technical writer on Medium: Next.js, SSR and SEO, frontend performance
