SUMMARY

Full-stack engineer with close to 3 years of experience shipping Next.js and Node.js products for clients. I redesigned a backend that now responds about 70% faster, integrate AI features with ML teams, and have led a development team through full release cycles. Used to working through written specs, documentation and regular client updates.

SKILLS

Frontend: React, Next.js (SSR, SSG), JavaScript (ES6+), Redux, Zustand, TanStack Query, Tailwind CSS, Styled Components, Storybook

Backend: Node.js, Express.js, Go, REST APIs, GraphQL, Firebase, JWT authentication

Data and messaging: PostgreSQL, MySQL, MongoDB, Redis, Apache Kafka, RabbitMQ, AWS SQS

Infrastructure: AWS, Docker, GitHub Actions, Vercel, CI/CD

Ways of working: Async written communication, technical documentation, code review, Agile/Scrum

EXPERIENCE

Webknot Technologies, Bengaluru | Senior Software Developer Oct 2025 – Present

- Redesigned the backend architecture of a client product; API response time fell by about 70% with near-zero downtime.
- Integrated AI-driven features from the ML team into our backend services.
- Rebuilt large parts of the UI so core user flows are simpler and faster to use.
- Write and maintain technical documentation, review code and mentor junior developers.
- Work with clients and internal stakeholders to turn requirements into technical designs.

Invennico TechnoLabs, Vadodara Jun 2024 – Sep 2025

Software Developer Team Lead (promoted) Apr 2025 – Sep 2025

- Designed system architecture for client projects and owned the full SDLC through post-launch support.
- Built CI/CD pipelines with automated deployments and a code review step for every change.
- Ran sprint planning, stand-ups and retrospectives for the team.
- Kept clients informed through requirement sessions, solution proposals and progress updates.

Junior Software Developer (MERN) Jun 2024 – Mar 2025

- Built a responsive web application with Next.js, React, Node.js, Express.js and MongoDB.
- Added server-side rendering in Next.js to speed up pages and improve SEO, which lifted user retention.
- Designed REST APIs and data models; used JWT for authentication and AWS S3 for file storage.

Adrixus Tech Studio, Vadodara | Software Developer Intern (MERN) Dec 2023 – Jun 2024

- Built reusable React components with Styled Components and documented them in Storybook.
- Wrote REST APIs with Node.js, Express.js and MongoDB for frontend features.

EDUCATION

B.Tech, Computer Science (Artificial Intelligence), ITM SLS Baroda University, Vadodara 2020 – 2024

ACHIEVEMENTS

- 1st place, Codeathon programming competition
- Technical writer on Medium: Next.js, API design, SSR and SEO, system design
