

Prabhanjan Sharma

Tech Lead | Full Stack (Next.js, Node.js) | Architecture, CI/CD, Team Delivery

Bengaluru, India | Open to remote

mprabhanjan18@gmail.com | linkedin.com/in/prabhanjan-sharma-38a48a221 | github.com/prab002

SUMMARY

Full-stack engineer who leads small teams and still ships a lot of the code. As team lead at Invennico I owned architecture, CI/CD, sprints and client calls end to end. At Webknot I redesigned a backend that now responds about 70% faster, integrate AI features with the ML team, and mentor junior developers. Close to 3 years of experience with Next.js, Node.js and AWS.

SKILLS

Architecture: System design, microservices, event-driven architecture, REST, GraphQL, Apache Kafka, RabbitMQ, AWS SQS, Redis

Engineering: Next.js, React, JavaScript, Node.js, Express.js, Go, PostgreSQL, MySQL, MongoDB

Delivery: CI/CD, GitHub Actions, Docker, AWS, Vercel, code review, Agile/Scrum, technical documentation

Leadership: Mentoring, sprint planning, requirement gathering, client communication

EXPERIENCE

Webknot Technologies, Bengaluru | **Senior Software Developer** Oct 2025 – Present

- Redesigned the backend architecture of a client product, cutting API response time by about 70% with near-zero downtime.
- Plan and ship AI features with the AI/ML team, owning how they fit into our backend systems.
- Mentor junior developers and run code reviews against the coding standards I maintain.
- Work directly with clients and internal stakeholders to turn requirements into technical designs.
- Rebuilt major parts of the UI to make core user flows simpler and faster.

Invennico TechnoLabs, Vadodara Jun 2024 – Sep 2025

Software Developer Team Lead (promoted) Apr 2025 – Sep 2025

- Owned architecture and delivery for client projects across the full SDLC, from planning to post-launch support.
- Set up CI/CD pipelines and automated deployments, and made code review part of every change.
- Ran stand-ups, sprint planning and retrospectives; team velocity improved and releases went out production-ready.
- Acted as the technical point of contact for clients, with proposals and regular progress updates.

Junior Software Developer (MERN) Jun 2024 – Mar 2025

- Built a responsive web application on Next.js and the MERN stack, frontend to database.
- Implemented server-side rendering in Next.js for faster pages and better SEO, which lifted user retention.
- Designed REST APIs and backend services with Node.js, Express.js and MongoDB.

Adrixus Tech Studio, Vadodara | **Software Developer Intern (MERN)** Dec 2023 – Jun 2024

- Built a reusable React component set with Styled Components, documented in Storybook.
- Wrote REST APIs with Node.js, Express.js and MongoDB for frontend features.

EDUCATION

B.Tech, Computer Science (Artificial Intelligence), ITM SLS Baroda University, Vadodara 2020 – 2024

ACHIEVEMENTS

- 1st place, Codeathon programming competition
- Wrote the team's workflow and best-practice docs, used for onboarding new developers
- Technical writer on Medium: Next.js, API design and system design
